Protective Clothing

South African law, and Ride Down South, requires that all riders and pillion wear an approved crash helmet when riding motorcycles. We highly recommend the use of adequate protective motorcycle gloves, sturdy shoes or boots and riding pants.

General Riding / Traffic Fines

The tour guide will conduct safety briefings at the beginning of each day's ride noting any particular hazards that could be encountered. The motorcycles will be inspected by the tour guide or group leader at the beginning and end of each day's ride.

During the tour we will encounter tar roads of varying quality as well as generally good quality gravel roads. By registering for the Ride Down South tour and agreeing to these terms and conditions the rider declares that she or he has or will have the necessary license and competence to handle a large-capacity (750cc) motorcycle on these roads with adequate levels of care and safety.

It is the rider's responsibility to abide by the legal traffic regulations at all times when riding and it will be solely the rider's responsibility should you infringe such regulations. Riders participating on the tour are doing so at their own risk and are legally liable for injury or damage to fellow participants or other road users. Each rider must ride within their own skill level and with due care and consideration for their own safety and that of fellow riders and other road users. Riders must follow the direction of the group leader who reserves the right to terminate a riders riding if he feels that the client is unsafe to himself or others
